

Smoke Baffle

Draft Curtain System

Sightline Commercial Solutions' smoke baffle offers the ultimate marriage of form and function. Engineered to meet today's fire codes for commercial buildings, this sleek smoke screen creates a virtually invisible glass curtain that is high temperature-resistant and designed to both contain and prevent the spread of smoke. Available in clear glass or with frosted or digitally printed finishes, our smoke baffles can be customized to serve the safety and aesthetic needs of any setting.

Smoke Baffle

Draft Curtain System
