

Project: Campbell Mithun
Architect: Julie Snow Architects
Partners: Cardinal Glass

Location: Minneapolis, MN
Contractor: J&J Glass and Glazing
Completion: May 2015

Scope:

Sightline Commercial Solutions had the privilege of contributing Point Series and Base Shoe railing systems to the redevelopment of this unique office space. The use of these systems allowed light to flow through the entire space, maintaining the desired open feel.

Point series utilized on multilevel staircases.

1/2" laminated tempered glass with a 060 SGP Interlayer.

Custom bleached white oak wood handrail.

Point series - 2 1/2" stainless steel side mounted nodes.

Eliminating the need for vertical balusters allows for openness and clean sight lines.

Base shoe with 1/2" glass shoe anchored to the structural slab on balcony overlooks.

We elevate places where experiences happen by providing innovative engineering, fabrication, and installation solutions to the most complex challenges. Discover our unconventional approach.
