

Project: F.N.B Tower
Architect: JDavis Architects
Partners: Cardinal Glass

Location: Raleigh, NC
Contractor: Choate Construction
Completion: December 2019

Scope: F.N.B. Tower at 501 Fayetteville is a spectacular mixed-use 22-story project anchored by First National Bank, offering the finest in Class A office and retail space, along with 239 luxury apartments with world-class amenities known to residents and locals as “The Faye.” At 420,000-square-feet, the massive tower is the latest addition to the Raleigh skyline with its sleek, modern design, featuring low-emissivity floor-to-ceiling windows, metal skin and vertical mirror glass fins. F.N.B. Tower represents one of Sightline Commercial Solutions’ largest windscreen projects, boasting 271 linear feet of the company’s award-winning Ascent™ Glass Windscreen surrounding the outdoor pool area and two Skydeck terraces, facing north and south, offering unparalleled views of North Carolina’s capital city.

Ascent Glass Windscreen System seamlessly blends into the outdoor dining area on this Skydeck terrace.

Ascent features 9/16” clear, tempered, laminated glass with SGP interlayer, providing a protective barrier against wind.

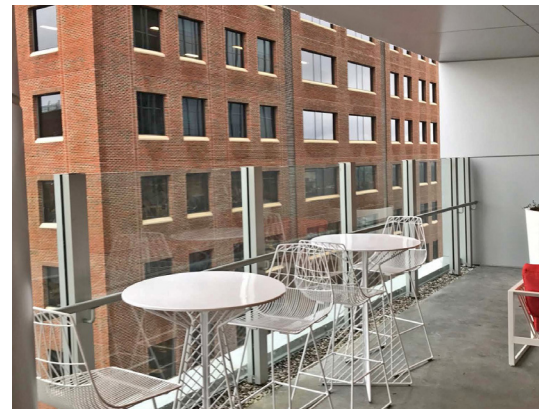

On the northwest side of the building, the windscreen system creates an “al fresco” experience for residents.

Ascent is ideally suited for the outdoor pool area creating a protected and comfortable environment.

At a standard height of 6 ft., the Ascent Windscreen System provides ample coverage for furniture and patrons.

Ascent is post-supported and attached using baseplates with epoxy anchors, as seen on the north side of the building.
