

# Ziegfeld Ballroom

## Ballroom

**Project:** Ziegfeld Ballroom  
**Completion:** August 2018

**Location:** New York, NY

**Scope:** Since 1969, the iconic Ziegfeld Ballroom has served as New York City's premier venue for special events with a robust calendar that requires daily changes in room configuration from full ballroom to performance stage to event setting and back. To help facilitate quick and easy layout transformations, Sightline Commercial Solutions designed and delivered 16 Uplift® stages for the multipurpose space. Designed to be easily raised, lowered and adjusted by a single operator, these innovative scissor-lift platforms can serve as an elevated stage, an expanded dance floor or virtually any other staging surface depending on the event.

We elevate places where experiences happen by providing innovative engineering, fabrication, and installation solutions to the most complex challenges. Discover our unconventional approach.
