

San Diego Padres Petco Park Ballpark

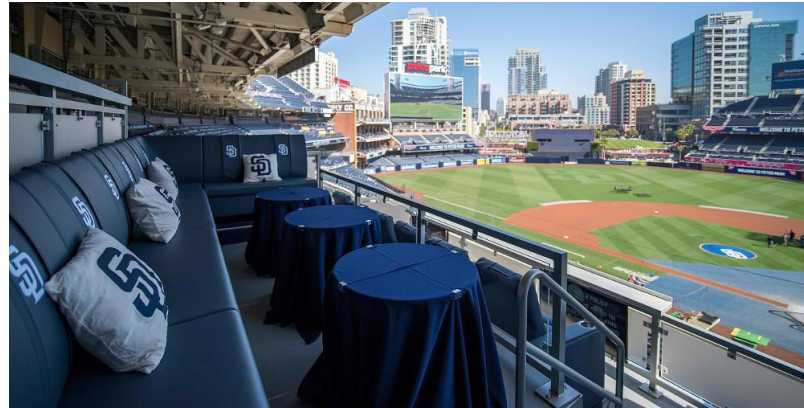

Project: San Diego Padres
Completion: April 2022

Location: San Diego, CA

Scope: What sets Petco Park apart is its breathtaking, scenic location, with stunning views of San Diego Bay and the city's skyline. To give San Diego Padres fans something extra to cheer about, Sightline Commercial Solutions installed a VIP Platform infill section at Petco Park. Changing the rise and run of the stadium, this section features larger tiers for a more spacious and premium viewing experience. Custom guardrails were also created to further define the exclusive space. Made of anodized aluminum with acrylic infill, the custom railing is specially engineered to support TV screens and deliver a high-end, aesthetically appealing look. Paired with cushy seating, cupholders and tables with cloth coverings, patrons are sure to enjoy a one-of-a-kind experience. The outfield also hosts an aluminum seating riser increasing capacity at the ballpark.

Custom guardrails define the VIP space while maintaining clear sightlines for avid fans.

Upgraded seating and convenient tables allow guests to watch the game comfortably.

The sturdy, aluminum seating risers further increase seating capacity at the ballpark.

Changing the rise and run of the stadium, the riser section features larger tiers for a more spacious experience
