

Economy Stair Unit

Accessibility

For a lightweight, durable stair unit appropriate for indoor use, choose the Economy Stair. This portable stair is a no frills fixed height solution permitting performers to access a stage or elevated platform. It was designed with traveling shows, live events, and the need for quick setup and strike in mind. Featuring tilt back integral wheels, there's no hassle when moving the Economy Stair between events or to storage. With its all-aluminum structure, integral handrails and lighter components, the Economy Stair offers afford-ability, durability, and ease of transport.

Safety & Efficiency

- Equipped with two aluminum handrails integrated into the frame.
- Stair units will lock into platform extrusion with no loose parts or special tools.
- Lightweight for convenient transport, setup and tear down.
- IBC code compliant
 - Stairs under 30": 2-Line Guardrail required per code
 - Stairs over 30": IBC Guardrail required per code
