

# Little Caesars Arena

## Hockey Arena

**Project:** Little Caesars Arena **Location:** Detroit, MI  
**Architect:** HOK **Contractor:** Barton Malow | Hunt | White  
**Completion:** September 2017

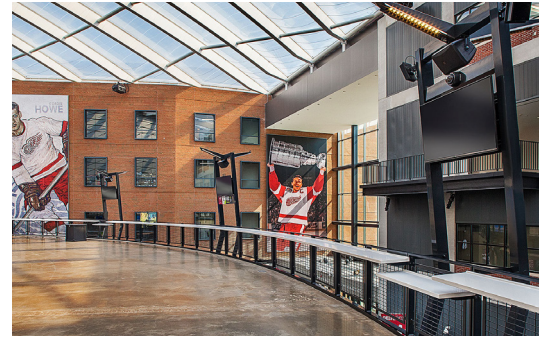

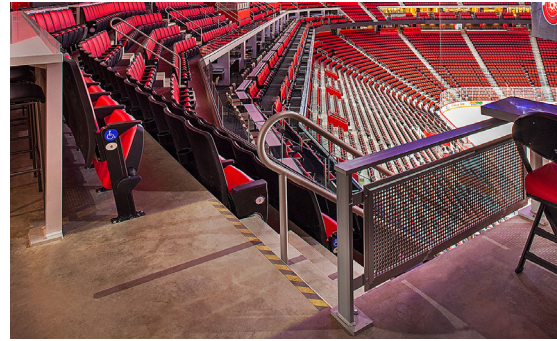

**Scope:** Little Caesars Arena (LCA) in Detroit offers an unforgettable experience that blends the thrill of sports with the excitement of live entertainment. As you step inside, you're immediately enveloped by the energy of the crowd and the state-of-the-art facilities. Over 18,000 linear feet of custom decorative railing can be found through Little Caesars Arena. From its unique gondola-style seating area suspended high above the playing area, to their numerous VIP club sections, to the seating bowl itself, you can't go far without viewing a custom railing designed and manufactured by Sightline Commercial Solutions. This project utilized Track Rail™, Gridguard™ railing, Aluminum Grip Rail™, and other types of our rail styles.

Track Rail™ lines the uniquely suspended gondola seating section allowing for clear visibility of the event.

Black powder coated Gridguard™ railing with mesh infill found throughout the arena.

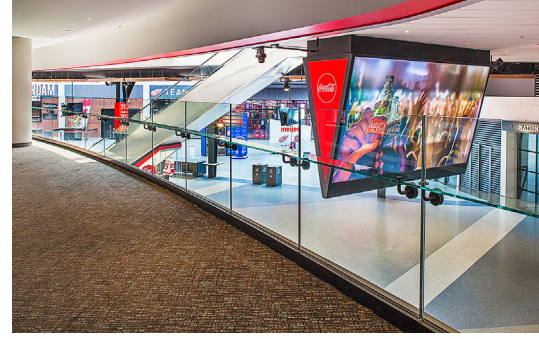

Aluminum Grip Rail™ can be found throughout the arena's seating area.

Railing with mesh infill, and custom drink rail allows fans to enjoy the event from the concourse.

Custom drink rail was utilized on ADA sections throughout the fan seating areas.

Gridguard railing with mesh infill allows for an open airy feel throughout the upper concourse.

Black powder coated Gridguard railing with mesh infill lines this premium seating area.

Custom Redwing Red Gridguard railing with perforated infill overlooking the arena floor.

Glass railing can be found through the facility.

We elevate places where experiences happen by providing innovative engineering, fabrication, and installation solutions to the most complex challenges. Discover our unconventional approach.
