

# DoubleTree by Hilton Hotel

## Hotel

**Project:** DoubleTree by Hilton Hotel      **Location:** St. Louis Park, MN  
**Architect:** RSP Architects      **Contractor:** PCL Construction  
**Partners:** W.L. Hall      **Completion:** June 2017

**Scope:**

The DoubleTree by Hilton Hotel in St. Louis Park is a hotel located in the suburban area near Minneapolis. They offer top of the line amenities for guests and recently completed a renovation which includes a custom glass railing system within the indoor pool area. This project featured vertical black anodized aluminum channels running the height of the stainless steel post securing the 1/2" clear laminated glass with opaque white PVB interlayer. A stainless steel handrail, and custom dark stained white oak top cap completed the look. Custom glass railing found on stairs, overlooks and ramps utilized an opaque interlayer creating privacy within the pool area.

ADA ramp within indoor pool area features Aspen glass railing with 1/2" laminated glass.

Top mounted glass railing features 1/2" clear laminated glass with opaque white PVB interlayer.

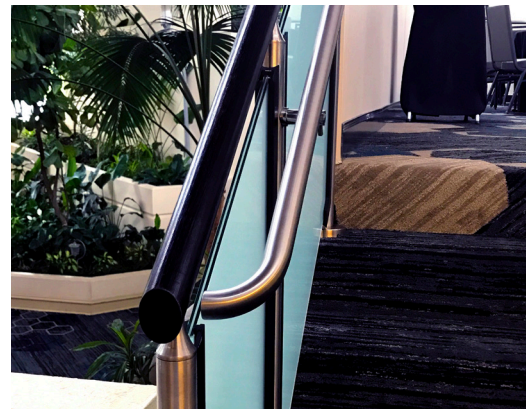

Glass infill secured by vertical black anodized aluminum channels running the height of the post.

Custom glass railing found on stairs, overlooks and ramps utilized an opaque interlayer creating privacy within the pool area.

Vertical black anodized aluminum channels, which secured glass in place, were fastened to round stainless steel posts with Rivnuts.

Hotel glass railing includes 1/2" clear laminated glass with a white interlayer, stainless steel handrail and a dark stained white oak top cap.
