

Clemson Football Complex

Higher Education

Project: Clemson University

Location: Clemson, SC

Architect: HOK

Contractor: DPR Construction

Completion: February 2017

Scope:

Sightline Commercial Solutions contributed over 1,300 feet of Monaco, Casino and aluminum picket style railing systems bringing Clemson University's concept for their state of the art facility to life. This impressive complex, inaugurated in 2017, embodies innovation, luxury, and functionality. The ornamental railing was functional, added the desired "wow" factor throughout the complex, and also contributed to reaching their target of earning LEED Silver certification by providing locally sourced materials.

Custom aluminum guardrail tops a replica of "The Hill" in the main entrance.

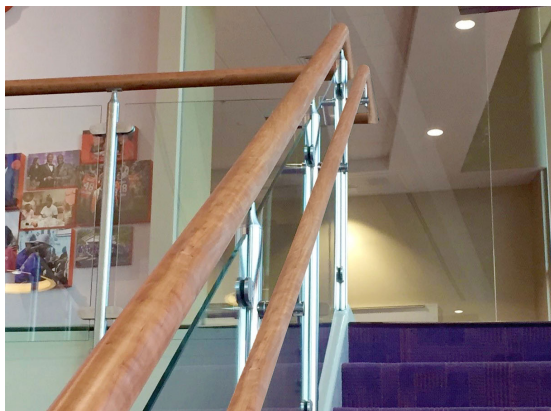

Custom black painted aluminum vertical square picket style guardrail with custom cast picket spear top.

Sleek fascia mounted Monaco glass railing with wood top cap overlooks main lobby.

Top mounted Monaco railing with wood top cap and handrail utilized the D-shaped clamp to secure glass infill.

Custom wood top cap and handrails were utilized on both the cable and glass railing systems on stair and balcony overlooks.

Casino cable railing with round stainless steel posts, and wood top cap is featured throughout the facility.

We elevate places where experiences happen by providing innovative engineering, fabrication, and installation solutions to the most complex challenges. Discover our unconventional approach.
