

Sunshades & Canopies

Custom Sun & Rain Protection

Providing sufficient coverage from excess sunlight or rain, sunshades & canopies are ideal for outdoor commercial settings. Whether used in multifamily unit common areas, inside and outside of sports stadiums, and as sophisticated awnings outside of hotels, office buildings, and other commercial facilities. Steel, aluminum, or glass can be used to construct the structure. Customize your own design with our array of specialized CNC machines. Available in multiple materials and a variety of support options.

Sunshades & Canopies

Custom Sun & Rain Protection

Metal Sunshades & Canopies are ideal solutions for outdoor commercial use. Sunshades are both aesthetically appealing for exterior settings, while also fully or partially protecting guests from direct sunlight or precipitation.

Sunshades & Canopies

Custom Sun & Rain Protection

Glass Sunshades provide interest and appeal while protecting patrons from sunlight and precipitation. They can be tailored to your specific commercial project needs with a variety of glass infills and metal framework.
