

# Rogers Place

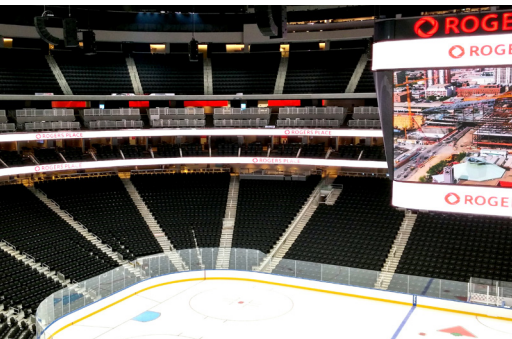

## Hockey Arena

**Project:** Rogers Place  
**Architect:** 360 Architecture | HOK  
**Completion:** September 2016

**Location:** Edmonton, Alberta  
**Contractor:** PCL Construction

**Scope:**

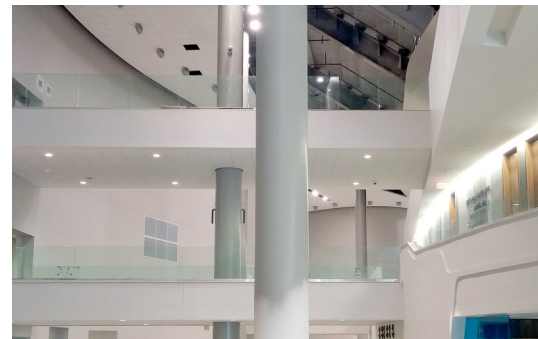

This marvel of a structure, home of the Edmonton Oilers (NHL) and the Oil Kings (WHL), sports 14,739 linear feet (4.2 kilometers) of decorative railing. Featuring Gridguard, Track Rail, Griprail and removable panel railing, the arena features custom railing throughout the concourses, and both main and luxury seating areas. Sightline Commercial Solutions was also able to contribute to Rogers Place achieving LEED Silver certification; the first NHL venue to do so.

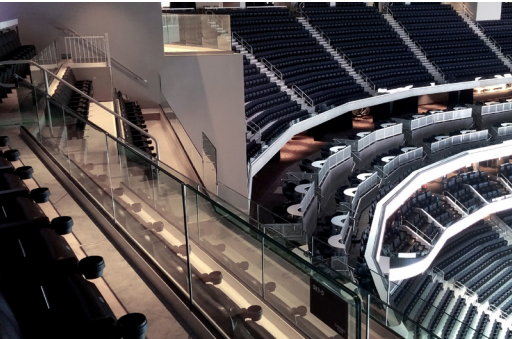

14,739 total feet of custom railing used throughout the LEED Silver Certified arena.

Track Rail with 3/4" laminated tempered glass was used on the Sky Lounge.

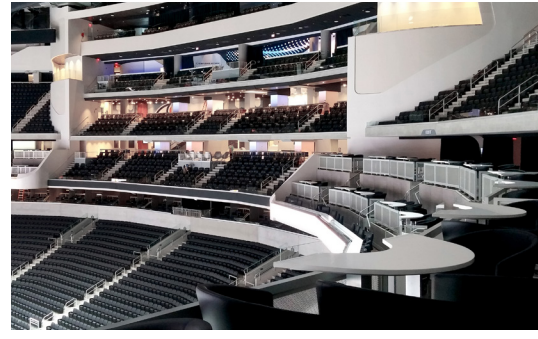

Track Rail with 3/4" laminated Tempered glass with PVB interlayer lines the bridges.

Track Rail used at front of seating areas throughout the facility overlooking arena.

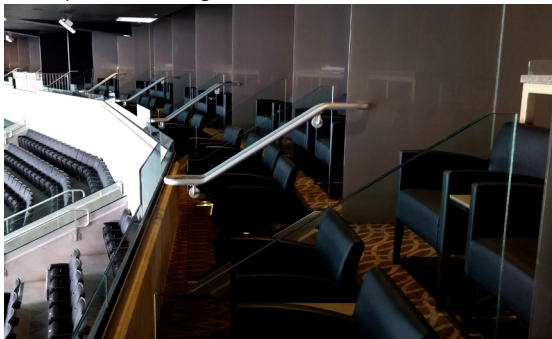

Aluminum Griprail with wifi boxes extending wifi capabilities throughout arena.

Gridguard with aluminum perforated panel surrounds 4-top seating areas.

Private PCL loge level features custom aluminum railing with perforated panel infill

Glass railing with aluminum handrail divide the "Theater boxes".

Sky Lounge features elegant radius staircases featuring artful glass railing.
