

United Palace Of Spiritual Arts Theater

Project: United Palace Of Spiritual Arts **Location:** New York, NY
Architect: Gensler Architecture **Contractor:** Yorke Construction
Completion: July 2021

Scope: Manhattan's United Palace of Spiritual Arts is a transformational venue where spirituality, art, entertainment and community unite. Since opening in 1930, the building has undergone numerous reinventions, from a movie theater and vaudeville hall to a non-denominational church and performing arts center. Today, the venue hosts hundreds of events each year, including spiritual gatherings and movie screenings as well as live performances by some of the world's biggest names in music, dance and theater. It has also been featured in countless films due to its well-preserved historic ambiance. Maintaining the integrity of the venue was a top priority for the building's latest remodel. With that in mind, Sightline Commercial Solutions leveraged its custom capabilities to seamlessly integrate new railing and staging applications with the building's architecturally significant structure. By combining ADA compliant platform infills with specially designed picket railing featuring custom scrollwork, filigree and medallions, Sightline Commercial Solutions created accessible systems for wheelchair users that updated the space while preserving its original aesthetics.

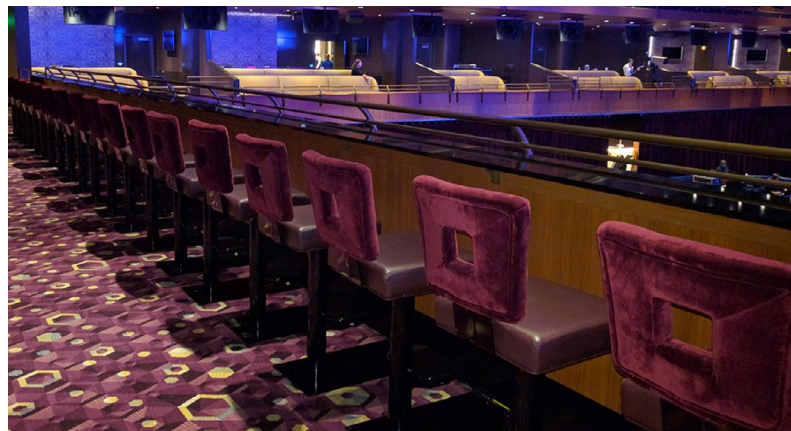

Sightline Commercial Solutions leveraged its custom capabilities to seamlessly integrate new railing applications with the building's architecturally significant structure.

Sightline specially designed picket railing featuring custom scrollwork, filigree and medallions.

ADA compliant platform infills created accessible systems for wheelchair users.

Guests can enjoy comfortable seating with excellent views.

We elevate places where experiences happen by providing innovative engineering, fabrication, and installation solutions to the most complex challenges. Discover our unconventional approach.
